SAW AIRSHIP IN ITS FLIGHT

Ad V. Spivey Witnessed Work
of a Roy Knabenshue at
Columbus, Ohio.

Rushville Man at the Ohio State
Fair Saw Birth Place
of Grant.

Columbus, Ohio, Sept. 7th, 1905.
Editor of Rushville Republican:

That aerial navigation is possible was made clear this morning when A. Roy Knabenshue, in his airship, successfully sailed a distance of eight miles from the State fair ground of Ohio, and encircled the dome of the capitol in Columbus, a distance of eight miles and returned to the fair ground and landed within six feet of the starting point. I was a personal witness of the starting and landing, and I think it is no exaggeration to say that 90,000 people witnessed this daring feat from the fair grounds and the entire population of Columbus.

As he circled the dome the thousands cheered the daring inventor on his successful achievement, and 500 feet above the dome he waived his acknowledgement of their good will.

The highest point reached was 1000 feet, but at that point he struck a current of air at about twenty miles per hour and he could not go against it, but at 500 feet against an eight mile per hour wind he could sail, and the frail looking bark, under the trained eye and skill of its inventor seemed to have human intelligence. While there can be many improvements made, no doubt, and will be in the future, it is safe to say that A. Ray Knabenshue, the boy of Welsh descent, has grappled and conquered the elements and has within his grasp the future of aerial flight. While yet, it is no more so than was the steamboat, locomotive, automobile, and telegraph in their first test stages.

Next week, Knabenshue will be at the Michigan State fair. The fair grounds are situated seven miles west of Detroit and he is to receive \$7500 to sail from the fair ground and encircle the Detroit city hall. This will be his longest flight, but he will do it as he has the goods.

The State fair of Ohio is immense and is grandly equipped and service is in every way excellent I cannot refrain from again mentioning the patriotism of Ohio citizens. In one of the most conspicuous places on the fair ground stands a substantial and beautiful stone building, surrounding a plain little one-story frame cottage, the cottage in which Gen. Grant was born. It is being preserved and it stands just as it did when the hero of Appomattox first saw the light of day. Of the thousands who yearly visit the Ohio State fair none fail to see this little cottage and hear from their elders of the hero who was born there. There stands intact the old cherry bureau that held the baby clothes of the future general, and when you stand and gaze upon it and think of his illustrious career, you feel that you are breathing air of inspiration. Is it any wonder that the citizens of Ohio are patriotic from youth up by being thus taught?

I felt this action in strange contrast to what the old home our own war governor Morton was receiving, and he who in the hour of the country's peril stood out as boldly and put Indiana where she shines with bright lustre in the galaxy of States, and upheld in his way and place the hands of the immortal Lincoln as much as did Grant upon the battlefield, but Ohio preserves the birthplace of Grant, and Indiana lets the home of Morton go under the hammer of the auctioneer. Can it be that we are short on patriotism?

Yours Truly,
AD. SPIVEY.

Will L. King, the Rush county fair secretary has tendered his resignation to the fair association. Mr. King is well known in Rush county and throughout the fair circuits of the State as he has held the position of secretary for almost twelve consecutive years. He has made an excellent secretary.

TO THE SCRAP PILE.

Massive and Costly Machinery
Being Broken up at
Alexandria.

Alexandria, Ind., Sept. 9.—The Republic Iron and Steel company, whose mill in this city for two years has been made the repository for the various dismantled mills of the country, is receiving the Terre Haute mill, which is joining the others in the scrap heap. Massive and costly machinery, aggregating hundreds of thousands of dollars, have been sledged and dynamited here into junk, and the work continues. Rumors among steel workers at Venice, Madison and other Illinois mill cities, which allege that the company will within eighteen months start work in the Alexandria mill with producer gas, is discredited here, all the machinery of the mill, except the boilers and engines having joined that of its fellows in misfortune at the scrap heap.

FIFTY MEN ARE BLOWN TO PIECES

Terrible Explosion at Rand Powder Works in Connellsville Pennsylvania.

Connellsville, Pa., Sept. 8th.—A terrific explosion occurred at the Rand powder works, six miles from Uniontown, at 9:15 o'clock this morning. About fifty men were employed at the plant and it is feared that nearly all of them were killed. Bodies of the men were blown into fragments and scattered for miles around.

The powder mill was demolished, pieces of the building being blown a distance of one-half mile. A terrible hole was made in the earth and the shock was felt for a distance of 100 miles.

NARROW ESCAPE OF CHILDREN

Horse Runs Away and Wanda Wyatt Remains in the Carriage.

Yesterday afternoon while Miss Wanda, daughter of Mr. and Mrs. George C. Wyatt, Miss Grace, daughter of Mr. and Mrs. Greeley Mauzy and Master Louis, son of Mr. and Mrs. T. W. Lytle, were driving west on Ninth street in a carriage, the bridle broke and the horse started to run. Master Louis jumped out to stop it and to fix the bridle. Just then Miss Grace fell out of the carriage and Louis turned to pick her up. With little Miss Wanda in the front seat of the carriage, the horse turned south on Jackson street and then east on Seventh, where it was caught by some men just as it turned up a lawn near the residence of Edward Young. Miss Wanda stayed bravely in the carriage, calling for help and holding to the lines. The children were indeed lucky in escaping injury.

ALL IS QUIET AT CAPITAL

Disturbances in the City of
Tokio Now Thought to
be Over.

In Response to Popular Desire
Government Has Published
Terms of Peace.

Tokio, Sept. 9.—In response to the popular desire and urgent requests of political leaders, the government published the terms of peace today.

Tokio, Sept. 9.—The city is quiet. Complete reports from metropolitan and outlying districts indicate that there was no disorder throughout the night or early morning. The quietness of the night is ascribed to a heavy rain which scattered the crowds, although the presence of military guards is having a beneficial effect. The streetcar service has been suspended at night and the suspension will continue while there is danger of the destruction of cars.

The government has suspended a total of five newspapers, and it is expected that publication of others will be prevented. Many believe that the most serious part of the disturbance is over unless an accidental clash with the military resulting in bloodshed occurs.

The government has not indicated its intention regarding the summoning of a special session of the diet, but it is believed that a call will be soon issued. Government officials and the better class of Japanese citizens are expressing keen regret over the attacks on Christian churches. They explain that the affair was the result of local conditions and does not indicate a serious anti-foreign or anti-Christian feeling.

They say that there has been local feeling over the refusal of native Christians to contribute to temple subscriptions and over their efforts to secure the closing of business houses on Sunday. Many declare that native Salvationists addressing a meeting in the Asakusa district started the trouble by rebuking the crowd for acts of violence.

Foreigners in Tokio generally are unconcerned over the situation. Some elements continue to express regret that Japan consented to the Portsmouth conference, but there is no indication that the sentiment is general. Preparations are progressing to present claims to the government for the foreign church property which has been destroyed. The members of the Harriman party have gone to Nikko, having cancelled the local program for their entertainment.

BOND FORFEITED IN BEALE CASE

James Barrett Pleads Guilty to
Eight Cases—Other Court
Notes.

In the circuit court today John S. Beale under indictment returned by the grand jury last February, charging him with being a gambler, the defendant was called three times and failed to appear. His bondsman, P. A. Miller was also called three times and failed to appear. Beale's attorneys also failed to put in appearance, and the bond which amounted to \$50 was declared forfeited. James Barrett, upon being arranged, plead guilty to eight charges against him. On five of these he was fined \$10 and costs, and on three he was fined \$3 and costs. Thirteen cases against him were nolledd upon motion of the prosecuting attorney.

Clarence Hiner, upon being brought into court, plead guilty to the charge of frequenting gambling rooms and was fined \$10 and costs.

In the case involving the incorporation of Glenwood, the appellants tendered and filed their appeal bond.

A penny is estimated to change hands about 125,000 times in its life.

THE MYSTERY GROWS.

Cashier of Haubstadt Bank is
Missing Without Known
Cause.

Evansville, Ind., Sept. 9.—The examination of the books in the State bank at Haubstadt, Ind., that began last Monday under the supervision of H. H. Ogdon, president of the West Side bank of this city, has been finished. Last Saturday Alois Ziliak, the retiring president of the bank, announced there was a shortage, and the directors of the institution were still under this impression until word was received from the bank at Mayfield, Ky., that the Haubstadt bank was credited with over \$5,000 there, which more than wiped out the alleged shortage.

The father of Thebes Farthing, the missing cashier of the Haubstadt bank, is connected with the Mayfield bank. No trace of Thebes Farthing has been found, his relatives asserting they have not seen nor heard from him since August 31, when he came to the city on the eve of a meeting of the directors of the Haubstadt bank called to audit the books.

BANKERT GOES ON THE STAND

Judge Renders Compromise Decision and He Testifies as to
Certain Things.

Sylvester K. Bankert, husband of Mrs. Anna Bankert, charged with the murder of Norman Cook, went before the grand jury this afternoon to tell what he knew concerning the shooting.

There has been some controversy as to whether or not Mr. Bankert should testify. The defense desired that he should not do so. The prosecution was desirous of having his testimony. Just before noon today the matter was argued before Judge Sparks in the circuit court. Prosecutor Elmer Bassett, who assisted Deputy Prosecutor Kiplinger today, made the argument for the State, and he was followed by Wallace Morgan for the defense.

The defense contended that a husband or a wife could not be made to testify against each other. The prosecution contended that they could, taking the Hutchinson case in the Supreme court as an example. The prosecution contended that Mr. Bankert was a competent witness.

Judge Sparks decided the matter at 2 o'clock this afternoon. He stated that Mr. Bankert should testify, but that he should not answer any questions as to confidential talks between himself and wife, or as to acts performed when no person other than himself and wife were present.

Mr. Bankert entered the grand jury room at 2:10 and was on the stand for about an hour.

Among the witnesses examined today were Mr. and Mrs. Roy Ruff, Coroner Coleman and Frank Johnson, the latter from near Glenwood.

Howard Bankert, the seven-year-old son, who was not called at the coroner's inquest, was on the stand for over an hour.

Willie Horr, who spent about two hours on the stand yesterday, was called again today. He was on the stand for nearly an hour.

It is thought, with Mr. Bankert's testimony and that of several others yet to be examined, the taking of the testimony will end probably Monday evening. The grand jury adjourned this evening at 3:30 o'clock, until Monday morning. The result of the investigation into the Cook case will probably be made known about the middle of next week.

Greensburg Review: Warren Levi, a well known police character of this city, was taken before Mayor Thompson this morning and after a brief lecture was given orders to either leave the city or go to jail. Levi has been at large for several weeks past on a suspended sentence placed on him for public intoxication, and was warned at the time that he was given his liberty that he would have to behave himself in the future or take the consequences.

MRS. SPENCER ASKS DIVORCE

Says Her Husband Cursed and
Abused Her—Romance Ends
in Court.

The troubles of John C. Spencer and wife, who in quite a romantic manner were married in the L. E. & W. depot, last May, have reached the courts.

Mr. and Mrs. Spencer were married on May 30th last. They lived together under a rather stormy roof, until today, a which time they separated.

Mrs. Spencer, through her attorneys, Watson, Titsworth & Green, at once applied for divorce. In her complaint she alleges that her husband was guilty of cruel and inhuman treatment, that he cursed and abused her, calling her vile names, that he choked her, ran after her with a razor and threatened to kill her. She alleges that her husband was drunk the greater part of their married life and that he is a drinking, quarrelsome man.

She says that he is an L. E. & W. brakeman and that he earns \$80 per month. She asks \$100 alimony and \$35 attorneys' fees. She asks that her maiden name of Carrie Webster be restored to her and that a restraining order be issued against her husband to prevent him from doing her harm.

TEMPEST IN TEAPOT

Reported Differences at Statehouse Largely Newspaper Talk.

Indianapolis, Sept. 9.—Governor Hanly will return from his vacation tomorrow afternoon, and it is expected that on Monday he will confer with the several state officials to whom he addressed communications requesting quarterly settlements of funds in their hands, and endeavor to have the matter determined. The governor is said to have written to the auditor, secretary of state, attorney general, clerk of the supreme court and oil inspector just prior to his departure for his vacation, and there has been no conference between them as reported. The following of the state officials are firm in their stand that they have been settling according to the law. Some of them are hardly pleased over the manner in which the matter was laid before the officials. One of them said today: "I don't know who gave it out that the governor had sent us letters demanding a quarterly settlement," he said, "but I don't think the information came from any of the officials with whom he communicated. It seems a trifle out of the ordinary that the reporters should come around and ask me about the matter even before I received the letter." The officials will consult Attorney General Miller on his return from his vacation and will probably abide by his decision.

It looks very much now as if three men will get good places on the Republican state ticket next year without the usual effort. Fred Sims of Frankfort is slated for secretary of state and has no opposition. John Billheimer of Washington has two opponents for auditor of state, but his chances are very bright and it is probable the contest will be settled on one ballot. Then James Bingham of Muncie seems to be getting into the class of the unopposed candidates, as he has a clear field for attorney general. He made a splendid impression at the state convention when Attorney General Miller was nominated, and he will be a hard man to beat. There is much talk favorable to the re-nomination of Fasset Cotton as superintendent of public instruction by acclamation, but he has two or three opponents now.

Chairman James P. Goodrich of the Republican state committee has spent considerable time at the headquarters here this week. Although he is not divulging his plans, it is said that he is quietly strengthening his fences to become chairman again when the committee is reorganized. He and his friends have allowed the matter to drift along, as they felt that the time was not ripe for doing any work, but it looks as if there will be "something doing" from now on. The opinion generally expressed is that Chairman Goodrich will be re-elected. He expects to be here two or three days next week. It is very likely that the state fair will bring together a lot of prominent politicians, and that much will be done toward shaping plans for the reorganization of the Republican committee.

Colonel Winfield Taylor Durbin, former governor of Indiana, has returned from a three-months' European tour with Mrs. Durbin. They are now residing at Anderson, but the former executive could not resist the temptation today to run down to Indianapolis and visit his old haunts at the statehouse. Since his term ended he has been devoting nearly his entire time to efforts to regain his health. His trip to Europe did him a world of good, as he looks stronger and heavier than for several years. He says he will reside at Anderson for the present and that he has no definite plans for the future.

PUSHING DEMANDS

Printers Declare Instant War on United Typothetae.

Chicago, Sept. 9.—According to the officers of the International Typographical Union, the war between the United Typothetae and the International Typographical Union over the latter's demand for an eight-hour day to go into effect Jan. 1 is to become general. Beginning today the strike will spread to every city in the country where the employers refuse to grant the eight-hour day.

Thus far the strike has affected only Chicago and Detroit. Today printers were called out of the Typothetae shops of Indianapolis, and from day to day strikes will be ordered in other cities. With the exception of Denver, Salt Lake City and Springfield, where the eight-hour agreement is now in effect, the order will affect practically every city of size in the United States, where branches of the United Typothetae exist. New York has a contract which exempts it from strikes until Jan. 1.

A Plucky Clerk.

Frankfort, Ind., Sept. 9.—Earl Johnson, a clerk in the general store of C. A. Marshall at Michigantown, discovered two men robbing the store an early hour. Johnson lives near the store and heard the men break in. He armed himself with a revolver and as he approached the store the men came out carrying their arms full of goods. He fired at them, whereupon they ran toward him until he fired again. They ran, pursued by Johnson, who fired the remaining shots in his revolver. The men dropped all the goods they had taken, except a fine watch.

Reward Is Withdrawn.

Kokomo, Ind., Sept. 9.—Believing that the Lewis Yeager murder mystery would never be cleared up, the county council has refused to continue to offer the reward that has been up since the crime occurred. Yeager was found dead in his buggy one morning after he had visited the home of his sweetheart, Miss Myrtle Finley.

Mayor Kills Assassin.

Covington, Ind., Sept. 9.—Mayor O. S. Jones last evening shot and almost instantly killed George Hutt, fifty-two years old, of this city, after Hutt made a desperate attempt to kill the mayor with a chair. Immediately following the shooting Mayor Jones gave himself up to the authorities.

Boys Admit Crime.

Rochester, Ind., Sept. 9.—Two Indianapolis boys, Guthrie Power and Nate Smiley, have pleaded guilty to the charge of stealing turkeys. They also told the authorities that they stole a horse and buggy to make the trip from Goshen to this city.

Missing Woman Found.

Shelbyville, Ind., Sept. 9.—Mrs. Anna Jacob, who became separated from her husband in Benton Harbor, was found at Granger, Ind. She had attempted to walk home and became exhausted.

Strike in Stone Quarries.

Bedford, Ind., Sept. 9.—One hundred employees in the Hoosier quarry are on strike.

A Matter of General Regret.

Tokio, Sept. 9.—The incident of the attack on members of the Harriman party is not regarded as a demonstration against Americans or other foreigners, but is believed to have been largely the result of time and circumstances. There have been a few expressions of regret that Japan consented to President Roosevelt's proposal for a peace conference, but it is apparent that this sentiment is not generally held. Many expressions of regret have been made by all classes over the Harriman incident.

Pulled From His Pedestal.

Tokio, Sept. 9.—Following an anti-peace meeting at Kobe a crowd estimated at 100 went to the Minatogawa temple, where a statue of Marquis Ito had been recently erected, attached a rope to the statue, pulled it from its pedestal and dragged it through the streets.

Vice President Returning Home.

Oyster Bay, Sept. 9.—Vice President Fairbanks, who yesterday paid a visit to the president, left at 4:20 p. m. for New York, en route to Westchester, Pa., where he will today deliver an address at a celebration by the Republicans of the fiftieth anniversary of the birth of the Republican party. Accompanied by Mrs. Fairbanks, if she should be able to travel, he will then proceed directly to his home in Indianapolis.

Philadelphia's Cleaning.

Philadelphia, Sept. 9.—The official returns of the September canvass of the voters of the city for eighteen of the forty-two wards were given out last night by the city commissioners and show a net loss of 12,043 voters as compared with the canvass made last May for the same wards. It is claimed by the city party and other reform organizations that the voting lists previous to the September canvass contained upward of 50,000 fictitious names.

Despondent Man's Suicide.

ONE WAY TO DO IT

How a \$500 Clerk May Nominally Be a Millionaire.

New York, Sept. 9.—Yesterday's session of the legislative life insurance investigating committee was devoted exclusively to the affairs of the New York Life company, and a searching examination was made of its officers who appeared on the stand. Beginning with the salaries paid to the officers, a line of inquiry extended through all the details of the company's participation in various underwriting syndicates for railroad securities, the New York Life's connection with trust companies, and finally near the close of the day developed the fact that it was not an unusual thing for clerks or messengers in the employ of the company with salaries as low as \$500 a year, to sign notes for millions of dollars to be used by the company in relieving its books of undesirable securities.

An interesting feature of the day was the statement that Thomas W. Lawson of Boston might be called as a witness. The committee's chairman, State Senator Armstrong, said if the information Mr. Lawson is supposed to hold could not be secured from other sources the Boston financier would be asked to testify. Not being a resident of the state, Mr. Lawson cannot be compelled to give testimony.

Officers of the New York Life company testified that on one occasion it became necessary for the company to sell certain securities in order to satisfy the Prussian government. Two clerks signed notes aggregating \$2,335,000 and on the books the securities appeared as sold to these parties, although they really had been turned over to the New York Trust company as security for the loan made on the notes of the two insurance company's employees. It was declared that since 1899 the New York Life company had not been connected with trust companies, but subsequently it was admitted that the stock of the New York Trust company is now held for the New York Life by a committee of trustees. The New York Trust company is a connection of the New York Security and Trust company and the Continental Trust company.

In the northern Caucasus the local militia is being rapidly organized under regular officers and non-commissioned officers. CORPORAL TANNER

Is the New Commander-in-Chief of Grand Army.

Denver, Col., Sept. 9.—The thirty-ninth annual national convention of the Grand Army of the Republic elected officers as follows: Commander-in-Chief, James Tanner of New York; senior vice commander-in-chief, Geo. W. Cook, Denver; junior vice commander-in-chief, Silas H. Towler, Minneapolis; surgeon general, Hugo Phillips, Waukesha, Wis.; chaplain-in-chief, Rev. Father J. G. Leary, Chapman, Kan. Minneapolis was chosen as the meeting place for 1906.

The contest for commander-in-chief was the most interesting feature of the session. Besides Corporal Tanner, R. B. Brown of Zanesville, O.; Charles Burrows of Batherford, N. J.; and Charles G. Burton of Nevada, Mo., were placed in nomination. Burrows' name was immediately withdrawn. The total vote for Tanner was 447. Brown received 187, Ohio and Pennsylvania giving him their full vote and Indiana a majority. The only large delegation that voted for Burton was that of Missouri. His total strength was 42 votes.

The newly-elected commander-in-chief announced three appointments and said they were all that he would make until he returned to Washington. Lieutenant Colonel John Tweedale, retired, was made adjutant general and Allen C. Bakewell of New York, national patriotic instructor. Thomas G. Sample of Allegheny, Pa., was continued as a member of the council of administration. Mr. Sample is reported on his deathbed, and Corporal Tanner explained that he wanted to be in office as long as life lasted.

THE STATE OF TRADE

Many Causes Contribute to Improved Conditions.

New York, Sept. 9.—Bradstreet's weekly review of trade today says: Wholesale distributive trade, already of full volume, has received new impetus this week from buyers' excursions at the Southwest, state fairs in the Northwest, and the general assurance that the corn crop is beyond danger of frost damage throughout a very wide area. Cooler weather and the ending of the vacation season, coupled with the partial reopening of schools, has made for more activity in retail lines north, west and east, while the prompt marketing at good prices of the first pick of the cotton crop has improved both wholesale and retail business at many Southern points. In industrial lines the feature has been unprecedented activity in rail-buying by leading companies, the placing of further orders for rolling stock, a number of small purchases aggregating a considerable volume of pig iron sales, and a stiffening in prices of coke and bituminous coal, this latter being regarded as a very significant item. Anthracite coal has felt the stimulus of cooler weather.

Fatally Injured by Fall.

New York, Sept. 9.—Jacob H. Thompson, exchange editor of the New York Times, who was found unconscious in his apartments in the St. James hotel yesterday, died at Flower hospital at 9:30 o'clock last night without having regained consciousness. Coroner Scholer expressed his belief that the injuries sustained by Mr. Thompson were the result of a fall after a stroke of apoplexy.

An Investigation Ordered.

Washington, Sept. 9.—As a result of the revelation of irregularities in the Schuykill arsenal, Acting Secretary of War Oliver has issued orders that a careful inspection be made by officers especially detailed for that purpose, of the big quartermasters' depots at Boston, New York, Philadelphia, New Orleans, San Francisco, Jeffersonville, Ind., and Seattle.

PALMER IS OUT

The President Appoints a New Public Printer.

Oyster Bay, L. I., Sept. 9.—President Roosevelt has taken summary action in the case of Frank W. Palmer, public printer, and head of the government printing office at Washington, by removing him from office.

Last Monday the president directed Mr. Palmer to send to him his resignation to take effect on the 15th inst. At the same time he directed him not to take any further action in the cases of Oscar J. Ricketts, former of printing, and L. C. Hay, a division foreman in the government printing office, whose resignations Mr. Palmer had requested. Mr. Palmer had given Ricketts and Hay until Tuesday to show cause in writing why the charges he had made against them should not be operative in removing them from their positions in the event of their failure to resign.

In direct disobedience of the president's instructions, Mr. Palmer on the 5th inst. notified Ricketts and Hay that the time which they might have in which to answer his charges would be extended until Saturday the 9th inst. As this was not only a violation of the president's specific instructions, but as the case of Ricketts and Hay had been placed in the hands of the Keep commission for investigation, the president felt it was time to take positive action regarding Mr. Palmer. He therefore removed him from office by telegraph and directed him to turn over the government printing office to Foreman Ricketts, whom he has designated as acting public printer.

Boy Killed in Shooting Gallery.

Fowler, Ind., Sept. 9.—Mystery surrounds the tragic death of twelve-year-old Charles Plasket at the county fair at Boswell. A large crowd of men and boys were surrounding a shooting gallery when suddenly Plasket threw up his hands and fell to the ground. Hasty examination revealed the fact that he had received a bullet in the forehead, and that his brains were oozing from the wound. The shooting gallery was immediately closed by the officers and the proprietor was arrested, but he disclaimed all knowledge of the affair.

Arrest Suspected Man.

Laporte, Ind., Sept. 9.—The police are looking for Paul Govine, who it is thought may shed some light on the death of Wayne Hale, who was lured from his home in Porter county a week ago and murdered. Govine, it is alleged, had quarreled with Hale because of family trouble. Hale, according to the allegation, learned that Govine was paying his (Hale's) wife attentions, and the trouble started from this source. Mrs. Hale is detained in the county jail.

Burke and His Associates.

The free and easy manners of the political and literary friends with whom Burke associated are exhibited by a personal anecdote. He often asked his friends to sup on beefsteak or a leg of mutton. One night the house sat late, and Burke brought home to supper Fox and two or three more of the Whig politicians. Mrs. Burke's face told of the ill provided larder.

"Surely," said the host, answering his wife's look of annoyance, "there's beef enough!"

Fox and another gentleman, seeing the state of affairs, hurried off to a tavern, where they obtained such dishes as could be purchased. Amid much laughter, they returned and set the table with the food they had foraged. Burke called them the most skillful of waiters, and there was an amusing, satisfactory supper.

Even Mice Were Scarce.

Brother Bill came home late and went down to the kitchen to look for a bite. He found the larder empty and started back to his room, when the front door opened to admit his brother Jim.

"Anything good downstairs?" inquired Jim.

"Lucky if you find a mouse," said Bill.

To Live In Fact.

Life is what we are alive to. It is not a length, but breadth. To be alive only to appetite, pleasure, pride, money making, and not to goodness and kindness, purity and love, history, poetry and music, flowers, stars, God and eternal hopes, is to be all but dead.—Malthe D. Babcock.

Petro's Shortage.

No step looking to prosecution has been taken by the town board, nor have any charges been filed by the prosecutor. The whereabouts of Petro continues unknown.

America's Trade With the Orient

By Baron KENTARO KANEKO of Japan

IN the next five or ten years American trade with the far east, particularly with Japan, WILL EXPAND WITH ENORMOUS RAPIDITY.

The reason is plain. We have to depend on America for raw materials, and you have to depend on Japan for raw materials. Our cotton factories depend ENTIRELY upon American raw cotton. We must depend on you for tobacco leaf. We look to you for breadstuffs, for iron and steel, cast, bar and sheet iron and machinery. These things we simply CANNOT make in our country.

On the other hand, we send you raw silk. You cannot raise it. We give you about \$50,000,000 worth of tea each year. In other things which never compete we provide your country, and the balance of trade is carried out by this means.

At present we cannot tell when the war will end, but sooner or later normal business conditions must return. We have spent enormous sums of money. We have had a great strain on our financial power. It will take four or five years for us to recover, and by that time the United States will have established A FIRM GRASP ON THE EAST, since you have such low interest on your money, such tremendous money power and skillful business men.

THE UNITED STATES WILL BE THE GAINER AND WILL HAVE TRADE THERE PRETTY MUCH ITS OWN WAY.

Millionaires Are Owned By Their Millions

By ANDREW CARNEGIE

MEN do not own millions. IT IS THE MILLIONS THAT OWN THE MEN. When you have education this is different. When you gain knowledge it doesn't possess you, but YOU POSSESS IT and have a treasure. No matter whether you die worth millions or not, you have something that is denied the man who is immersed in the accumulation of wealth. Stock gambling is not a business; it is a mere PARASITE ON BUSINESS.

If I had a son I should prefer to have him enter upon a professional career rather than any other. I have been looking largely into small colleges of late, and I have entered into the college business as I not long ago entered into the library business. I think a young man who goes to a small college receives a BETTER EDUCATION than at a large one. I like to see men not excelling in football or things pertaining to the foot, but excelling in HEAD expansion.

SPORT IS TOO GENERALLY TAKING THE PLACE OF VALUABLE KNOWLEDGE AT THE BIG COLLEGES.

Are You SATISFIED with Indiana Pride and Purity Flour? If so, do not accept a substitute for a few cents less for it is not as good. We have spent thousands of dollars to make our Plant an up-to-date Mill, and we are safe in saying that we have the best equipped mill in the State today, and our sales are sufficient proof that we are making better Flour than our competitors, for we are operating our mill full time, while most of them are only running half time. INSTITUTE IS WELL ATTENDED

Supt. Headlee Gives Talk on Plans For School Work.

The teachers of this township met at the assembly room of the court house today for the preliminary institute. A large number of teachers and others interested in educational work were present, and much interest was manifested in the work.

An interesting program had been prepared and short talks were given by Alfred Hall and H. B. Wilson. Prof. Headlee made a few remarks on the plans of the school work of the present year. The object of these institutes is to get the teachers acquainted with each other, and to have them tell of their experiences in school work. By this means the teachers profit by each others experiences, and in this way they are a source of education in themselves.

AMUSEMENTS

A queer experience is related by Mr. Gibson, manager of Rowland and Clifford's "Over Niagara Falls," which comes to the opera house, Monday night, Sept. 11th. A very stout, red-faced lady appeared at the door of a theatre recently, leading her two boys, aged eight and ten, and presented one ticket. "You will have to buy tickets for those boys," said Mr. Gibson. "No I won't," she protested, "they always go to sleep as soon as they get inside. Why should I pay for them if they don't see the show?" The manager couldn't get around that argument, so he passed them in. After the first act an usher came to Mr. Gibson and handed him a quarter, saying "the fat lady told me to tell you one of the kids woke up."
